ECOCERT Certification

Valerie Lemaire
 Natural and Organic Cosmetics
 Certification Service Manager
 ECOCERT

ECOCERT is present over 85 countries around the world, and is internationally acknowledged for its activity on Organic Farming Agriculture Certification.

Since the year 2000, ECOCERT has worked on the elaboration of the Standard for Natural and Organic Cosmetics. This Standard has been registered upon the French Ministry of Industry in 2003.

The objective of this Standard is not only to valorize the ingredients resulting from Organic Farming, and also require the use of ingredients coming from agro-resources rather than those that come from petrochemistry in a way to ensure the most the respect of the environment.

We currently certify more than 200 companies over the world, which means more than 3500 certified products.

The European Market for Natural & Organic Cosmetics has risen of 30% on 2006.

ECOCERT proposes 2 different labels:

- Natural Label: 5% minimum of Organic Certified ingredients on the total of ingredients, which represents 50% of vegetable ingredients.
- Natural & Organic Label: 10% minimum of Organic Certified ingredients on the total of ingredients, which represents 95% of vegetable ingredients.

For the two labels : > 95% ingredients of natural origin.

(cont'd on pg. 3)

Educational Hour

Fragrance As A Science

Steve Herman
 Director New Technology
 Mastertaste

7his presentation will give an overview of the technical foundations of fragrance: chemoreception (how we smell), fragrance creation, natural and synthetic raw materials, translation into functional products, and aromascience (how fragrance affects our mood and behavior). References and relevant web sites will aid those interested in a fuller treatment of the subject.

ABOUT OUR SPEAKER

Since 2002, Valerie Lemaire is the Natural and Organic Cosmetics Certification Service Manager - ECOCERT, which is responsible for elaboration of the Standard for Natural and Organic Cosmetics; this Standard has been registered upon the French Ministry of Industry in 2003. In 1998 she completed her PhD program in sucrose based tensides and in 1994 she graduated as Chemical Doctor Engineer specialized in Agro-resources.

Educational Hour

ABOUT OUR SPEAKER

(cont'd from pg. 1)

Steve Herman is Director New Technology for Mastertaste. He has a BS in Physics from Stevens Institute of Technology, and an MS in Chemistry from Fairleigh Dickinson University. Steve has over 35 years experience in the industry, principally with fragrance suppliers. Long active in the Society of Cosmetic Chemists, he was NY Chapter Chairman in 1992 and received Fellow status in 2002. He has taught in the FDU Masters in Cosmetic Science program since 1993, and has been a frequent speaker at technical meetings. A regular columnist for GCI since 1998 and author of 8 articles on fragrance topics, he has also written a book, *Fragrance Applications: A Survival Guide* (Allured), and a chapter in *Chemistry & Technology of Flavors and Fragrances* (Blackwell).

Message From The Chair

Our Careers, Our Passion

I'll never forget my first experience formulating personal care products. Starting in the late '70's, my father, a former bakery owner (among many other endeavors) found interest and demand in formulating soaps, shampoos, and lotions. Back when "pyramid marketing" was new, he began formulating, both for his own line and for private label. I remember how amazed I was, at age 8, helping him melt flakes, mix oils, add fragrances...

Since then I've been studying the back of labels, buying only products with ingredients my father believed in (at the time). By age 14, personal care ingredients were as significant to me as candy or boys (or whatever it is early teens like... I don't remember)! It's no wonder I ended up with a career in the industry.

I think most of us would agree that we find a unique interest in our market, not just our career in it. This is something a claim that the majority of careers cannot boast. The SCC is an avenue to fulfill the continuous desire for new knowledge and ideas that many of us enjoy. Thanks to all of the members, presenters, and attendees that help our chapter thrive!

Hope to see most of you at our meeting at Duke's in Malibu this month! Happy reading!

Heather Naef-Owen
S. Calif. SCC Chair, 2007

Advice to the Lab Lorn

"Advice to the Lab Lorn" is intended to offer advice, or maybe just solace, for confusing, challenging or downright murderous issues facing SCC members in their labs. Send us your questions at lablorn@caliscc.org and we'll track down an authority or two and get back to you in the Cosmegram. You can include your name if you wish, but we won't publish it for all to see! Your secrets are safe with us.

John Garruto

Advice to the Lab Lorn will return next month.

Making Beautiful Solutions Possible

BASF, a supporter of cosmetic chemists around the world, is pleased to support this Chapter of the SCC. When you're looking for a customer-focused partner for your personal care product needs, look to **BASF** for:

- Advanced ingredients for haircare, skincare and sun care products
- Research and development of innovative cosmetic ingredients
- Technical support for your formulation challenges

With our California distributor:

CHEMTEC
CHEMICAL CO.

Find out how BASF can make your cosmetics better.
Call 1-800-880-5768, fax 1-318-861-8031 or Email cosmetics@basf.com.

For customers serviced by our distributor, please call Chemtec customer service at 1-818-700-0071.
