SEPTEMBER 2023 • VOL 53 | ISSUE 5

## MONTHLY MEETING - SEPTEMBER 2023

### BEYOND SUDS & BUBBLES: EXPLORATION OF SURFACTANTS

*Dennis Zlotnik*  
*General Manager - Biorenuva*

Surfactants, short for surface-active agents, are indispensable ingredients in the realm of personal care products. This lecture provides a concise yet comprehensive introduction to the significance and applications of surfactants. Surfactants, known for their dual affinity to water and oil, play a pivotal role in cosmetics, skincare, and haircare formulations. We explore their chemical structure and fundamental functions, including cleansing, micelle formation, emulsion stabilization, and foaming.

Real-world examples illustrate the selection of surfactant types to meet specific formulation needs, ranging from anionic to cationic and nonionic surfactants. Additionally, we address the increasing importance of sustainable surfactant options to align with environmentally conscious consumer preferences. Whether you're a newcomer or a seasoned professional in the industry, this lecture offers valuable insights into optimizing surfactants for successful personal care product development.

er you're a newcomer or a seasoned professional in the industry, this lecture offers valuable insights into optimizing surfactants for successful personal care product development.

Dennis Zlotnik has an academic background in biochemistry coupled with 15+ years in the life sciences markets. Dennis began his career at Hallstar selling and marketing a variety of specialty industrial and cosmetic ingredients. He then spent 3 years in Shanghai, where he played a pivotal role in establishing a commercial office and lab, overseeing cosmetic ingredient strategy. After returning to the USA in 2015 he ran commercial strategy for Hallstar's Beauty & Personal Care ingredients portfolio. In 2018 he joined a life sciences focused private equity firm acquiring firms in the home care and industrial chemicals space. Now, as the General Manager at Biorenuva, he's focused on helping to usher in the next generation of surfactants utilizing cutting edge biotechnology concepts to create high performing and sustainable biosurfactants.

## MONTHLY MEETING SPONSOR

Best known for the design of our own brand, RAHN-Cosmetic Actives, along with our long-term partnerships with select specialty raw material suppliers. We have created a high-quality product portfolio that meets the most challenging customer needs. Our award-winning, sustainable, plant-based cosmetic actives have strong, scientifically-backed claim substantiation. RAHN's dedication to quality, efficacy, and exceptional customer service makes us a leading innovator in the beauty industry.

# CALIFORNIA SCC CHAPTER ELECTIONS

---

Hello California SCC - I hope your summer is wrapping up nicely! It's September, which of course means that we're in full swing for our annual SCC Chapter Elections. If you're a General Member who's current with your membership dues, you should have received an email from SCC National on September 13th with a link to our online elections ballot (if not, please reach out to me at [mason.montgomery1095@gmail.com](mailto:mason.montgomery1095@gmail.com)).

We have three wonderful candidates for our 2024 elected offices, whose bios and candidacy statements we've provided here (these can also be found in the online voting portal).

## BRITTNEY STRICKLAND – 2024 CHAIR-ELECT CANDIDATE

### BIO

Brittney Strickland, Business Development Director of Beauty Actives at Croda Inc, brings 10+ years of expertise in the beauty industry. She leads the Business Development team that's focused on botanicals and bioactives from Sederma, Crodarom, and Alban Muller. Her extensive experience includes working with top global raw material suppliers. Brittney holds a B.S. in Business Administration from The Ohio State University and an M.B.A. from Syracuse University. Additionally, she possesses numerous Cosmetic Chemistry certifications and actively serves as the Social Media Chair for the Society of Cosmetic Chemists, California Chapter. She has also served as President of Beauty Industry West.

### CANDIDATE STATEMENT

I am excited to announce my candidacy for the position of Chair-Elect of the Society of Cosmetic Chemists, California Chapter. With a profound passion for the cosmetic science industry, I bring extensive experience in Personal Care, spanning from Leadership, Sales, Business Development, Product Management, and Marketing.

Throughout my career, I have consistently delivered exceptional results, fostering robust customer relationships, and collaborating with brands while driving sustained growth. As an Adjunct Professor at the Fashion Institute of Design and Merchandise (FIDM), I actively contributed to shaping future industry professionals. My commitment to the cosmetic science community is exemplified through my volunteer work as a Board Member and Social Media Chair for the Society of Cosmetic Chemists - California Chapter, where I leverage social media to boost membership and industry engagement. Additionally, my leadership as an Executive Board Member and President/Advisor at Beauty Industry West showcased my dedication to advancing the beauty industry.

As Chair-Elect, I am committed to driving the continued growth and advancement of our chapter by prioritizing education, professional development, and NextGen outreach. I will create opportunities for members to connect, learn, and thrive in an ever-evolving industry landscape. Moreover, I will advocate for sustainability and responsible practices, ensuring our industry's positive impact on the environment and society.

With a transformative leadership style, relentless pursuit of innovative strategies, and an industry-focused approach, I am confident that I can deliver measurable success for our chapter. Together, we will elevate the Society of Cosmetic Chemists, California Chapter to new heights.

Thank you for considering my candidacy. I am excited about the opportunity to contribute my skills and passion to the betterment of our industry and the growth of our chapter.

## STEPHANIE FACURI – 2024 TREASURER-ELECT CANDIDATE

### BIO

Stephanie Facuri is a Pharmacist with 15 years in the Personal Care industry, including 10 dedicated to cosmetic formulation and raw materials. She joined Evonik in 2011 as Head of Application Technology LATAM, supporting customers, distributors, and the sales team. Relocating to the US in 2018, she became an Account Manager, aiding Western US clients. In 2022, she embraced her new role as Formulation & Business Development Manager for the US. Stephanie connects and supports start-up cosmetic brands with formulation services, alongside managing some global accounts. Her strengths include a positive attitude, teamwork, and effective communication.

## CANDIDATE STATEMENT

With a robust 15-year journey in the Personal Care industry, I am excited to express my candidacy for the position of Treasurer at CaliSCC for 2024.

As Treasurer, I aim to apply my experience and expertise to CaliSCC, contributing to its mission of fostering collaboration, knowledge sharing, and innovation. My foundation as a Pharmacist intertwined with my years in the cosmetic industry equips me with a unique perspective on the financial aspects of the organization. I envision a role where I can not only manage financial matters meticulously but also act as a bridge between members, facilitating their engagement and growth within SCC.

I am committed to leveraging my strengths to propel the organization forward, fostering an environment where ideas flourish, partnerships thrive, and the cosmetic chemistry community evolves collectively.

It would be an honor to contribute my passion, knowledge, and energy to CaliSCC as Treasurer!

## MAYRA DELGADO – 2024 SECRETARY CANDIDATE

### BIO

**Current Position:** R&D Chemist, KDC/One (Chatsworth, CA)

**Prior Experience:** R&D Chemist, Allure Labs (Hayward, CA); Regulatory Affairs Specialist, Rodan + Fields (San Ramon, CA); Quality Assurance, Making Cosmetics (Redmond, WA)

**Educational Background:** Western Washington University, M.S. in Chemistry; B.S. in Chemistry

**Publications:** Ligand-Based Reduction of Nitrate to Nitric Oxide Utilizing a Proton-Responsive Secondary Coordination Sphere Ligand-Based Reduction of Nitrate to Nitric Oxide Utilizing a Proton-Responsive Secondary Coordination Sphere. (2017); Nitrite Reduction by a Pyridinediimine Complex with A Proton-Responsive Secondary Coordination Sphere (2016); Pyridinediimine Iron Complexes with Pendant Redox-Inactive Metals Located in

the Secondary Coordination Sphere (2016); Stabilization of A Zn(II) Hydrosulfido Complex Utilizing A Hydrogen-Bond Accepting Ligand (2016); Probing the Protonation State and the Redox-Active Sites of Pendant Base Iron(II) and Zinc(II) Pyridinediimine Complexes (2015)

## CANDIDATE STATEMENT

I earned my Bachelors of Science in Chemistry from Western Washington University. As an undergraduate student, I quickly discovered my passion for working in a lab and joined as an Undergraduate Research Assistant in the Chemistry Department. My excitement for working in a lab led me to continue my research studies and earn my Masters of Science in Chemistry. Post-graduation, I came across the personal care industry and soon fell in love with the science behind cosmetics. I started my journey in the beauty industry in Washington, but relocated to the SF Bay Area where I worked in Regulatory Affairs before transitioning back into the lab as a R&D Chemist. During my time in the Bay Area, I attended my first ever SCC meeting and was immediately amazed with this professional community. I knew I wanted a bigger involvement in the SCC and have since volunteered at every possible occasion. March of this year, I relocated to Los Angeles to be in the heart of the beauty industry in pursuit of my passion within the personal care industry.

Since joining the SCC, I have admired the dedication of this organization to promote education, provide support and resources, and help build relationships across the industry. It would be an honor to be elected as the California SCC Secretary and work alongside experienced and knowledgeable professionals. In addition to secretarial duties, I look forward to getting more familiar with the organization, building a network with other board members, and becoming a collaborator of new ideas and opportunities. The SCC is an organization of great value to me and it would be a pleasure to become a part of this network. Thank you for your consideration.

Thank you for considering my candidacy. I am excited about the opportunity to contribute my skills and passion to the betterment of our industry and the growth of our chapter.

## MEMBERSHIP DUES RENEWAL REMINDER - 2023

Hello fellow SCC members and friends,

Thank you to all our SCC Family that has renewed for 2023!!! BUT we are not close to our goal of 1000 memberships! Please renew if you haven't and encourage your co-workers to join or renew! Our board is focused on our members and how to bring relevant and cutting-edge technology to California. Please take the time to engage with us and volunteer!. If you have not renewed, there is now a \$25 charge but it is still worth it! See you at the next meeting!

### The quickest and easiest way to renew is online!

To pay online go to [members.sconline.org](https://members.sconline.org) and login using the username and password you set up. If you have not set up your username and password on our new database please go to [www.sconline.org/registration](https://www.sconline.org/registration) and create your own.

### BENEFITS OF MEMBERSHIP

- You can attend the California Chapter meetings & all other chapter's meeting at the member rate.
- Attend almost all events at a discounted rate!
- Receive the Journal of Cosmetic Science complimentary
- Exclusive Membership Directory
- Complimentary membership in the International Federation of the Societies of Cosmetic Chemist (IFSCC)
- Check out more perks at [www.sconline.org/Membership](https://www.sconline.org/Membership)

It may be mid-September but I'll say it:  
**half of my heart is still in Havana (ooh, na-na)**

On Saturday, June 3rd CASCC danced the night away with a sell-out crowd at a stunning new venue: The Westin Anaheim Resort in Orange County.

The Havana Nights Dinner Dance was our very own tropical oasis complete with vibrancy and warmth everywhere you turned. Ruffles & Rumba, cigar rollers & salsa dancing, there was no shortage of celebration, good times and great company.

A new core memory was made: seeing the dance floor kick off with the most festive CONGA LINE I've ever seen! It was truly the perfect way to kick-off summer.

We had a record show of support from our incredible sponsors & volunteers and this night wouldn't have been possible without these generous contributions. A heart-felt thank you to all involved!

I hope you enjoy these photos & memories as much as we enjoyed the honor of planning the event.

2023 Dinner Dance Chair,  
Catherine Hoang

# We Value What Makes Each of Us Different

As a professional association in the cosmetics and personal care industry, the Society of Cosmetic Chemists (SCC) represents nearly 6,000 members globally. **Diversity, equity and inclusion are at the core of who we are as an organization.**

We are committed to advancing, cultivating, and preserving a culture of diversity, inclusion and belonging because a successful community of industry professionals working together to promote science, innovation, and education is our mission.

We are strengthened by the varied identities, experiences, cultures, and perspectives of our leadership, employees and members. The Society of Cosmetic Chemists is committed to fostering a safe and welcoming environment where everyone is shown respect and dignity, and opportunities for engagement and participation are available regardless of age, appearance, ethnicity, gender identity, geographical location, national origin, professional level, race, religious beliefs, sexual orientation or socioeconomic status.

The Society of Cosmetic Chemists pledges to:

- Stand against racism, intolerance, and discrimination.
- Speak up and address bias wherever we see it, whether conscious or unconscious.
- Foster open, candid, and constructive dialogue.
- Prioritize diversity, equity and inclusion as a primary and essential business function.
- Be an environment in which any individual or group can be and feel welcomed, respected, supported, and valued to fully participate.

We encourage all of our members, and the global industry as a whole, to join us in these efforts.

## ATTENTION! ATTENTION!

# In-House CEP Courses Available

In-House Courses are highly-personalized courses brought to companies to address challenges or areas of need. These courses, taught by knowledge experts, provide professionals with an up-to-date cosmetic science education. Recent In-House Courses have been organized for **Benefit Cosmetics, Mary Kay, Bayer**, the **FDA** and others.

Companies interested in providing in-depth technical information to their employees can contract an education day in a location of their choosing.

- ▶ **SOCIETY** covers the costs of booking the instructor and all of the instructor's traveling expenses (including hotel, flight, car, etc.)
- ▶ **COURSES** can be scheduled for 1 or 2 days on any topic of particular interest to the company
- ▶ **COMPANIES** can choose the instructor if they seek a specific knowledge expert

### Current courses available include:

|                              |   |                        |
|------------------------------|---|------------------------|
| Scale Up & Processing        | Botanicals & Naturals for The Naturals Market   | Preservatives          |
| Regulatory                   | Chemistry & Regulations of Cosmetic Colorants   | Cosmetic Rheology      |
| Color                        | Molecular Biology & Gene Expression             | Color & Make-Up        |
| GMPS For Cosmetics           | Phytochemistry 101 For Cosmetic Chemists        | Surfactants            |
| Cosmetic Formulations        | cGMPS For Cosmetics and Otc's                   | Cosmetic Raw Materials |
| Regulatory Update            | Practical Basic & Theory in Emulsion Technology | Fragrance as A Science |
| Beginning Cosmetic Chemistry | Cosmetic Chemists Guide to Product Development  | Silicone Chemistry     |
| Basic Hair Science           | Sustainable Cosmetic Product Development        | <i>and more!</i>       |

# HISTORIAN'S ARTICLE

---

## ADAPTOGENS

Now that we all enjoyed our summer vacations and are getting back to work, I thought it would be interesting to write an article about Adaptogens. The word "Adaptogen" is becoming very popular, appearing in many products from food to cosmetic preparations. But what does it mean for an ingredient to be an Adaptogen?

The first person to coin the term was Nikoli Lazarev in 1947. He was conducting research into substances that increase resistance to stress, mainly in Russian pilots during WWII. He was looking for substances that would increase stamina, and endurance in hazardous conditions. Lazarov's aim was to supply military persons with easily available, natural stimulants from botanical sources. He focused his research on ingredients that have been used for centuries in traditional medicine in many cultures, like Chinese, Russian, Ayurveda, etc. Lazarov wanted to find evidence that these ingredients and their combinations are effective in stressed induced and age-related disorders and how they performed on the neuroendocrine and immune systems.

*Erica Herrell*

Adaptogens are defined in several ways:

- Medicinal substances that cause increased resistance to stress.
- Cause minimal disruptions to physical function of an organism, with increased resistance to adverse influence of a wide range of factors caused by physical, biological, or chemical. Have a normalizing action.
- Non-toxic
- Can be a metabolic regulator and increase the ability of an organism to adapt to environmental factors and avoid damage
- Have a curative affect in stress induced disorders

There are other definitions, but all focus on the benefits of these ingredients on the overall health of a biological organism. Adaptogens are similar to Antioxidants and vitamins which have protective effects. The difference is found in the neuroendocrine-immune complex. These ingredients have been found to have signaling pathways to trigger the generation of certain hormones, mainly Cortisol, Corticotropin-releasing hormones, Urocortin, neuropeptide Y, which play key roles in metabolic regulations and homeostasis. As a results Adaptogens are being studied in the prevention and treatment of Chronic fatigue, memory loss, depression, anxiety, sleep disorders, diabetes, heart disease and high blood pressure.

So, what does all this have to do with cosmetic science you ask?

We now know that a major cause for skin aging is inflammation. The cause for inflammatory response could be due to many factors, lack of sleep, exposure to toxins as well as daily stress. (AKA, work and kids). There are several botanical sources for Adaptogens. The more widely known are extracts from Ginseng (Ashwagandha), Radishes, Licorice root, ginger, Tulsi (Holy basil), Emblica and many others. The lesser-known substances that are gaining popularity are from the Fungus family. Most notably, the Reishi mushroom. Studies have shown that the extract of this (not very edible) fungus has strong protective effect against numerous skin ailments. The skin benefits also include delayed signs of aging and promoting a more youthful appearance, while aiding in skin repair and recovery. The mushroom's key components are beta glucans, which help with hydration, Amino acids, polysaccharides, and probiotics. No wonder it was called the "mushroom of Immortality" 2000 years ago in eastern medicine.

As our world becomes more challenging, it is nature that will ultimately help us navigate our daily lives.

Now, vacation time is over...get back to work!!

# COMING SOON!

## THE WEST COAST'S FIRST PROFESSIONAL CERTIFICATE IN COSMETIC SCIENCE!

The Department of Chemistry and University Extension at the University of California, Riverside will be presenting the first Cosmetic Science program on the West Coast. Participants in the program will learn to formulate from a science-first approach, improve their trouble-shooting and critical thinking skills, move independently from product conception to final formulation and understand the global cosmetic regulation landscape. The program will include courses in Introduction to Cosmetic Science, Skin and Hair Biology, and two courses with a strong laboratory component:

Emulsion and Surfactant Technology and independent Product Development project. All courses are designed to accommodate the busy schedules of working professionals in the industry to gain knowledge and skills for career advancement. UCR anticipates a start-date of Fall 2023. Watch this space for news on the program launch!

# REGULATORY UPDATES

## USA

### FDA

- Hand Sanitizers-After two recent recalls, the FDA issued guidance for the public advising to making sure consumer look at the warning and safety info. on a label. They also pointed consumers to the “blacklist” of hand sanitizers to avoid due to issues with claims, active ingredients, and methanol content.
- MoCRA-The FDA has held workshops to comment on new MoCRA requirements for labelling and GMPs. They have also issued guidance on facility and product registration. The registration portal will open in October 2023, and registrations are required by Dec. 29, 2023.
- OMUFA Facility fees-Due June 1, 2023
- Warning letter-A cosmetic drug manufacturer received a warning letter over insufficient drug GMPs and benzene presence in product. Additionally warning letters were issued for sunscreens that had inadequate presence testing for sunscreen actives.
- Hosting a forum on Advancing Regulatory Science Through Innovation on June 13-June 14, 2023.
- Talc-The EPA finalized the reporting and record keeping rule for asbestos.

*Ariana Farina*

### California

- Safer Consumer Products Regulations-The California DTSC announced they were unaware that nail products contain over 40+ candidate chemicals listed by the Safer Consumer Products Program and may take a closer look. Also the DTSC may add Microplastics and PPD to the Candidate Chemical List. And....there was a 15 day notice of proposal to list nail products containing Toluene as a priority product on May 15, 2023
- California Safe Cosmetics Program-List of reportable ingredients was updated in June, 2023
- Prop 65-In June, it was announced by OEHHA the intent to list Anthracene, 2-Bromopropane and Dimethyl Hydrogen Phosphite.

### Oregon

- Bill S546 passes-bans the following in cosmetics (intentionally or not intentionally added). Compliance date Jan. 1, 2023: (a) Ortho-phthalates; (b) Perfluoroalkyl and polyfluoroalkyl substances; (c) Formaldehyde (CAS Registry Number 50-00-0) and formaldehyde releasing agents; (d) Methylene glycol (CAS Registry Number 463-57-0); (e) Mercury and mercury compounds (CAS Registry Number 7439-97-6); (f) Triclosan (CAS Registry Number 3380-34-5); (g) m-Phenylenediamine and its salts (CAS Registry Number 108-45-2); and (h) o-Phenylenediamine and its salts (CAS Registry Number 95-54-5). (2) A manufacturer may not knowingly manufacture, sell, offer for sale and....  
Lead or lead compounds at 10 ppm or above (or as otherwise determined by the Oregon Health Authority by rule).

### Washington

- SB 5367-Redefined the definition of “cannabis” in the state
- Expanded their Polystyrene Ban in the state to include packing peanuts. As of June 1, 2023 packing peanuts are banned, which applies to both distributors and manufacturers.
- Bill HB1047 signed- Bans the following intentionally added to cosmetics:
  - Ortho-phthalates;
  - Perfluoroalkyl and polyfluoroalkyl substances
  - Formaldehyde (CAS 50-00-0) and chemicals determined by the department to release formaldehyde;
  - Methylene glycol (CAS 463-57-0)
  - Mercury and mercury compounds (CAS 7439-97-6)
  - Triclosan (CAS 3380-34-5)
  - m-phenylenediamine and its salts (CAS 108-45-2)
  - o-phenylenediamine and its salts (CAS 95-54-5)
  - Lead or lead compounds (CAS 7439-92-1), lead or lead compounds at one part per million (ppm) or above
- Jan. 1, 2025—Effective
- Jan. 1, 2026—Sell Through Date of compliancy, for everything except lead.

---

## REGULATORY UPDATES (CONT.)

---

### **Nevada**

- Bill AB169-In June announced new requirements for feminine hygiene products with a compliancy due date of Jan. 1, 2025 for products manufactured on or after this date.

### **Maine**

- Amended their PFA Containing Product Law to extend the submission deadline to the state Department of Environmental Protection till Jan. 1, 2025. It also amended new info. required and reporting methods. There is now a small business exemption. And other previous exemptions were clarified.

## **INTERNATIONAL**

### **Canada**

- Health Canada Product Safety Program-Announced that the “Consumer Product and Cosmetic Reports” received is now searchable by various elements of the reports.
- Animal testing will be banned

### **China**

- Approved 3 new ingredient in cosmetic products.

### **Korea**

- Introduced new draft regulation indicated they will allow Methoxypropylamino Cyclohexenylidene Ethoxyethylcyanoacetate (MCE) as a sunscreen active. Stay tuned for updates on this.

### **EU**

- In July, 2023, announced a new draft that could would ban 30 new CMR substances. Stay tuned...

### **UK**

- The UK has stated that animal testing will not be allowed in the UK for cosmetics.
